

IMPORTANT SAFETY RECALL

2023MY CX-50 – Trailer Hitch Harness May Detach

Safety Recall 5723B - NHTSA Campaign Number 23V-135

April 2023

This notice applies to your vehicle: VIN _____

Dear Mazda Owner:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Mazda Motor Corporation has decided that a defect which relates to motor vehicle safety exists in certain 2023MY CX-50 vehicles equipped with Mazda Genuine Accessory trailer hitch harness. If you received this notice, your vehicle is included in this Safety Recall.

What is the problem?

On certain 2023MY CX-50 vehicles with the installed Mazda Genuine Accessory trailer hitch harness, the harness may loosen or detach, causing insufficient clearance to underbody components. The detached trailer wire harness could become damaged due to contact with the vehicle's exhaust components or road debris while driving. A damaged harness can cause the lights and/or braking of a connected trailer to become inoperative, increasing the risk of a crash. Both the 4-pin and the 7-pin harnesses are affected.

What will Mazda do?

Protect What Is Important To You

Your Mazda dealer will repair your trailer hitch harness kit. The repair will be performed free of charge and at no cost to you.

How long will it take?

It will take approximately 1 hour to complete the repair; however, your Mazda dealer may need your vehicle for a longer period of time. Mazda will provide alternate transportation, if needed, when your vehicle is at an authorized Mazda dealership for a recall repair. Please schedule an appointment with an authorized Mazda dealer so they can discuss and accommodate your needs.
